Damage Glossary

Damage

Damage refers to any harm or impairment to a vehicle's physical components, affecting its appearance, functionality, or safety. Damage can range from cosmetic issues like scratches and dents to severe structural problems. It can be caused by collisions, weather events, vandalism, or other incidents.

CARFAX tips

Keep in mind: while our data shows no further damage, additional events may have occurred. CARFAX only reflects information that's been reported to us.

It's still important to take a close look at the vehicle during your test-drive. Small details can sometimes hint at past repairs. Keep an eye out for paint inconsistencies or uneven panels.

Carfax glossary

CO2 Emissions

CO2 is an abbreviation for carbon dioxide, a gas that is emitted from a vehicle as a result of fuel combustion. The quantity of carbon dioxide released in the exhaust gases is a good measure of the amount of fuel a car is burning. That quantity is measured by the number of grams of CO2 released into the air for every kilometer that is driven.

Model year

This term is defined by the manufacturer but it is typically the year the vehicle is built. If the model year does not appear on the CARFAX report, it is because the manufacturer did not include this information in the VIN. Model year can normally be determined by the vehicle age.

Number of records

A CARFAX record refers to a specific incidence and date in the history of the vehicle. Please note that the history of younger vehicles tends to have fewer entries. CARFAX continuously works on getting more data sources and historical information in order to enrich the report

Quick check

A snapshot of the information CARFAX has abstracted from our extensive database to determine whether a vehicle has been reported stolen, reported scrapped, publicly imported or ever used for non-personal purposes. This summary is based upon all the information supplied to CARFAX from various sources. Additional information about this vehicle, including these potential problems, may exist and may not have been reported to CARFAX.

Severity scale - Minor

Generally, minor damage is cosmetic (including dents or scratches), may only require reconditioning, and typically does not compromise a vehicle's operation and/or safety.

Severity scale - Moderate

Moderate damage may affect multiple components of the vehicle and may impair the vehicle's operation and/or safety.

Severity scale - Severe

Severe damage usually affects multiple components of the vehicle and is likely to compromise the vehicle's operation and/or safety.
