# Carfax glossary

## **Average Mileage**

Average Mileage is not the actual odometer reading for this car, but an estimate of how many kilometers an average car of this make, model, fuel type and age would be expected to have if used solely for personal use. The actual mileage for this particular car will indicate if it has been driven more or less than average and may be a factor to help you determine its value

## **Model year**

This term is defined by the manufacturer but it is typically the year the vehicle is built. If the model year does not appear on the CARFAX report, it is because the manufacturer did not include this information in the VIN. Model year can normally be determined by the vehicle age.

## **Number of records**

A CARFAX record refers to a specific incidence and date in the history of the vehicle. Please note that the history of younger vehicles tends to have fewer entries. CARFAX continuously works on getting more data sources and historical information in order to enrich the report

## **Quick check**

A snapshot of the information CARFAX has abstracted from our extensive database to determine whether a vehicle has been reported stolen, reported scrapped, publicly imported or ever used for non-personal purposes. This summary is based upon all the information supplied to CARFAX from various sources. Additional information about this vehicle, including these potential problems, may exist and may not have been reported to CARFAX.

## **Severity scale - Minor**

Generally, minor damage is cosmetic (including dents or scratches), may only require reconditioning, and typically does not compromise a vehicle's operation and/or safety.

## **Severity scale - Moderate**

Moderate damage may affect multiple components of the vehicle and may impair the vehicle's operation and/or safety.

## **Severity scale - Severe**

Severe damage usually affects multiple components of the vehicle and is likely to compromise the vehicle's operation and/or safety.

## **Vehicle reference**

User-provided value to identify the vehicle during the CARFAX Vehicle History Report retrieval process and to confirm vehicle identity on the report itself.
